## NEW HAVEN PLANNING TO SPEND \$25,000,000

No Dividends or Expenditures  
Till Needed Improvements.

Edward Duckland, vice president and head of the department of the New Haven railroad said at New Haven Tuesday that the road was planning to spend \$25,000,000, and that no dividends could be paid or expenditures made until needed improvements were finished and the government suits against the road ended. He said:

"The building of a new bridge across the Thames river, at New London, is imperative, and it must be built strong enough to take the heaviest loads which may be anticipated will pass over it. This bridge will cost about \$3,500,000. Another \$1,500,000 must be spent in electrical facilities to get the full benefit of the electrification between New Haven and New York and diminish if not abolish the smoke nuisance in New Haven so far as the railroad is responsible for it. Another \$3,000,000 must be spent for track, yards and sidings.

"Regularly and safety are to be assured by improved and added signals at an estimated cost of \$1,000,000. Passenger cars, steam engines and freight cars must be supplied at an estimated cost of over \$3,000,000. It is safe to say that at least \$25,000,000 should be spent within the next five years, the most of which must be realized either from earnings or from the sale of property or securities.

"The dissolution decree embarrasses the company in obtaining this money in ordinary times would be through the issue of stock, which would be willingly taken if the company were on a permanent dividend paying basis."

Although little is said about it, chemists in most of the big mills hereabouts are a bit worried over the growing inability to secure blue dyes in particular.

## MAY BE SUBJECT FOR INEBRIATE FARM

But New London Man Will Spend 10 Days in Jail.

Frank Brightman, who was allowed to go when presented in court Monday morning for intoxication, came into the Bradley Street Mission Monday night very drunk and this morning he was again before Judge Coit. Brightman was sentenced to ten days in jail. His conversation makes it appear that he is not sound mentally and application is to be made to the probate court for his commitment to the state hospital at Norwich. In court this morning Brightman said he was sober in the arms of the Lord, he said.

Thomas Cornell, assistant to Superintendent Mansfield at the Mission, said Brightman was very drunk and talkative. Mr. Mansfield told Brightman aboard a train for his home in South Lyme, Monday morning, but he was back in the local social zone in an hour.—New London Day.

**Grocery Store Attached.**  
The grocery store of Otto Ferry at 340-342 Franklin street was closed by attachment by Deputy Sheriff Herbert E. Draper on Wednesday afternoon. There were four writs, the first for the L. A. Gallup Co. on a claim of about \$300, the second for J. C. Worth & Co. on a claim of about \$400, the third for the Stoddard Gilbert Co. on a claim of about \$300, and the fourth for the company on a claim of between \$100 and \$200.

**For Injury to His Finger.**  
The following workmen's compensation agreement approved by the commissioner was filed on Wednesday at the office of the clerk of the superior court:  
William W. Winchester of New London, employer, and Frank Congdon of 47 West street, New London, employee, second finger on right hand injured on Oct. 16, compensation \$12.85. The employee returned to work on Nov. 8.

## Gained Eighteen Pounds After Using Three Bottles Of Peruna

Mrs. Hattie Hamilton, No. 218 Glen Ave., Latonia, Ky., writes: "I have taken two bottles of Peruna and commenced on the third one. I did not really need the third one, but thought it best to take another bottle. I have always weighed 162 pounds, but since I began taking Peruna, I weigh 180, for the first time in all of my life, and I am now 32 years old. Your medicine has surely done me a great deal of good, and I have recommended it to several others who have begun taking it. My mother, who is 76 years old, had grown so weak she could scarcely walk. She took two bottles of Peruna and is fatter and looking well."

**My Mother  
76 Years Old  
So Weak  
Could  
Hardly Walk  
Used Two  
Bottles  
Is Fatter  
And Looking Well**

Our booklet, telling you how to keep well, free to all. Those who object to liquid medicines can now procure Peruna Tablets.

A rush of live steam—a flood of boiling water—and the varnish wasn't harmed.

A man in Michigan wrote the makers of Valpar: "I gave my floors two coats of Valpar. Some little time after when letting the air out of one of the hot water radiators broke the valve off—and a stream of almost boiling water came out and ran all over the floor and covered them with two inches of very hot water. This water was so hot and made so much steam in the room that it caused the wall paper to come off in some places. 'This water stood on the floor until we could get it mopped up. I thought sure our floors were ruined, but it never hurt them a particle. I would not have believed that any varnish could stand anything like that without turning white. I saw this myself, so there is no chance for a dispute.'"

This ranks with the now universally known test of pouring boiling water on a Valpar painted table and leaving it unharmed. Or with the untold stories of countless housewives who now mop their varnished floors with hot water, who disregard splashing in the bath room, kitchen, pantry and laundry—because of Valpar. We sell Valpar—and guarantee it to be satisfactory or your money back.

Printed instructions for using Valpar correctly and a set of beautiful Valpar Poster Stamps can be obtained from us free of charge.

## ALLEGES DAMAGES BY ARREST TO MAKE DANDRUFF QUICKLY VANISH

Isaac Kirman is Plaintiff Against George W. Mahoney—Asks \$3,500 Damages—Trial Begun in Superior Court—Second Count in Complaint was Dropped.

Trial of the suit of Isaac Kirman of Norwich Town against George W. Mahoney of this city was begun in the superior court here on Wednesday afternoon at 3 o'clock before Judge William L. Bennett and a jury, the action being brought for \$3,500 damages on a claim made because of the arrest of Mr. Kirman at the instance of Mr. Mahoney on May 12, 1915. Mr. Kirman claims that he was arrested needlessly and upon a false charge and that his reputation had been damaged.

In the complaint drawn by his attorney, V. P. A. Quinn, who is assisted in the trial by Judge John H. Barnes, it is claimed that on May 12, 1915, Mr. Mahoney stated to John D. Hall, prosecuting attorney for the city court of Norwich, that Isaac Kirman had hired a horse from Mr. Mahoney and had committed the crime of cruelty to animals and procured from Mr. Hall a complaint charging Mr. Kirman with overdriving, overworking and cruelly beating a horse of the defendant. The plaintiff was arrested on this charge in New London while a passenger on board a steamer bound for New York where he was to consummate a business deal, and Mr. Kirman was brought to Norwich, where he was furnished with his appearance in the city court on May 13, 1915. Upon appearance in the city court for trial, Mr. Kirman was acquitted and three days further he stayed for about two hours and had dinner, and also fed the horse. After they drove to Fitch's Center, about half a mile, where it had been arranged Mr. Mahoney was to come by trolley so as to drive the horse back to Norwich while the plaintiff was in the trolley to New London to take the boat for New York.

Mr. Mahoney met them at the Corner, the witness said, and complained about the horse and told them he would have them arrested unless they paid him \$5. They would not pay \$5 but offered to pay \$4, but Mr. Mahoney would not accept this amount. They took the trolley to New London while Mr. Mahoney drove the rig to Montpelier, looking for a National American. It is understood that the plaintiffs counsel, have one more witness and that the defendant will have four or five witnesses.

**The Jury in the Case.**  
The jury in the case is James D. McCarthy, John Crawford, Norwich; Herman A. Davis, Preston; George A. Bailey, Norwich; Arthur P. Turner, Lebanon; John H. Steadman, Clarence E. Maine, North Stonington; A. Douglas Winchester, East Greenwich; Edwin S. Sprague, Charles I. Beebe, Salem.

**BOY SCOUTS HOLD RALLY AT ARMORY.**  
Drill and Contests Make Evening Full of Interest.

About 125 scouts answered the call of Scout Commissioner Benjamin M. Bruce for the scout rally held in the armory on Wednesday evening. Assembly was sounded at 7.30 o'clock, and the salute to the flag was followed by the scout oath. There was instruction in marching drill and troop formation by patrols. This was in charge of Scoutmaster and Scoutmaster Peckham, drillmasters. The setting up drill was in charge of Scoutmaster Turner, who gave the instruction. Bandaging and first aid followed. Teams composed of two men each took part in the contest. Dr. L. E. Walker, the judge, inspected the bandages and the following were the winners: First, Scouts Anderson and Johnson of Troop No. 1, 44 points; second, Scouts Sears and Crumb of Troop No. 7, 43 points; third, Scouts Constable and Royce of Troop No. 2, 36 points. The contest consisted of tying six standard bandages with the triangular bandage. Dr. Walker gave the scouts a talk on the fundamentals of first aid. Scout games followed, the boys taking part enthusiastically. Although the game was to be cut short, owing to lack of time, the Boy Scouts requested that the cockfighting contest and was won by Jonathan Johnson of Troop 3, with Kenneth Botham of Troop 6 second and George D. Groton third. The rally was brought to a close with the America yell and the sounding of taps.

## WOULD PRESERVE HARTFORD HISTORIC CITY HALL.

Mrs. Oliver L. Johnson on Committee of Colonial Dames.

New Haven, Conn., Nov. 17.—At the semi-annual meeting here today of the Connecticut Society of Colonial Dames a committee was named to co-operate with the municipal authorities in the preservation of Hartford's historic old city hall. The committee is headed by Mrs. Oliver L. Johnson, Hartford, and other members include Mrs. Eli Whitney, New Haven; Mrs. Oliver L. Johnson, Norwich; Mrs. H. E. Bridgman, Norwich; Mrs. George P. McLean, Simsbury, and Miss Edith Kingsbury, Waterbury.

## KIDNEY TROUBLE LEADS TO TERRIBLE TORTURES

Hundreds of sufferers from pains in the back and sides, bladder and urinary disorders, lumbago, rheumatism, dizziness, puffing swellings under the eyes, in the feet and ankles, nervousness, tired or worn-out or headachy feeling, do not seem to realize that the greater part of all sickness today is caused by kidney trouble. It can be avoided by keeping the kidneys working properly. It is a simple matter, and the many agonies that accompany weak, clogged-up or diseased kidneys, you can avoid by using a reliable remedy, which is very inexpensive, yet acts quickly and surely on the seat of the trouble. You'll be surprised how tired different you'll feel in a very short time. It doesn't matter how long you have suffered, how old you are, or what you have used. The relief is sure. Solvax is such that it is practically impossible to take it into the human system without some beneficial results. Solvax is pleasant to take, gives you a better appetite, and is a successful fact that Lee & Osmond, and other leading dealers in this vicinity will in future sell it under a positive guarantee of relief or refund the money. No other kidney remedy we believe ever had a large enough percentage of cures so that it could be sold in this manner. A guarantee that tells speaks volumes for the merit of Solvax. There is no time like the present to do this. Get it today. If anyone has kidney trouble today is the best time to begin curing it.

he told of a trip he made with a horse and carriage to the Mahoney stable on the day in question to show some farms to intending purchasers. He testified that the horse that was hired by Mr. Kirman was overdriven, and said he was not the one who hired the horse, but that the rig was hired by David Becker. This witness was cross examined by the attorneys for the defendant, who are Williams H. Shields and William H. Shields, Jr.

David Becker was the next witness called. He testified that on the morning of May 12, 1915, he hired the rig from the Mahoney stable about 10.30 o'clock in the morning and with Mr. Kirman and the intending purchasers about three miles to the Beetham place in Preston. This, he said, was about five miles. After stopping and looking around the place, they drove on to another farm about a mile beyond, but found this was not for sale. Then they returned and reached the stable again about 1 o'clock. They told the barn foreman that they were going to the Beetham place in Montville, which was about four miles. The witness said they suggested that they had better have another horse, but the foreman said this one was all right. They made the trip to the Beetham farm and then went on to the Baker place, about three miles further. Here they stayed for about two hours and had dinner, and also fed the horse. After they drove to Fitch's Center, about half a mile, where it had been arranged Mr. Mahoney was to come by trolley so as to drive the horse back to Norwich while the plaintiff was in the trolley to New London to take the boat for New York.

Mr. Mahoney met them at the Corner, the witness said, and complained about the horse and told them he would have them arrested unless they paid him \$5. They would not pay \$5 but offered to pay \$4, but Mr. Mahoney would not accept this amount. They took the trolley to New London while Mr. Mahoney drove the rig to Montpelier, looking for a National American. It is understood that the plaintiffs counsel, have one more witness and that the defendant will have four or five witnesses.

**The Jury in the Case.**  
The jury in the case is James D. McCarthy, John Crawford, Norwich; Herman A. Davis, Preston; George A. Bailey, Norwich; Arthur P. Turner, Lebanon; John H. Steadman, Clarence E. Maine, North Stonington; A. Douglas Winchester, East Greenwich; Edwin S. Sprague, Charles I. Beebe, Salem.

## NORWICH HAD GOOD HEALTH IN OCTOBER

Death Rate Was Considerably Below That of the State.

According to the report made for October by the state board of health, the death rate for the large towns was 13.9, for the small towns 12.3 and for the whole state including institutions 13.5.

In Norwich the death rate was 10.3, in New London 10.5, in Stonington 15.3, in Windham 15.3, and in Putnam 8.2. There were 128 deaths in the state in October, which is 95 less than in September and 65 more than in October of last year, and 51 more than the average for October for the five years preceding. The deaths from infectious diseases were 171, being 12.3 of the total mortality.

Deaths from the following causes: Tuberculosis of lungs 7, other forms of tuberculosis 1, cancer 2, infantile paralysis 1, lobar pneumonia 1, diphtheria 1, diarrhoea and enteritis under 2 years 5, accident 2, suicide 1, all other causes 3. Vital statistics for other Eastern Connecticut towns were as follows: New London—Deaths 30; typhoid fever 2, diphtheria 1, lobar pneumonia 1, cancer 2, infantile paralysis 1, diphtheria 1, diarrhoea and enteritis under 2 years 1, accident 2, suicide 1, all other causes 3. Stonington—Deaths 14; cancer 1, diarrhoea and enteritis under 2 years 1, accident 2, suicide 1, all other causes 2. Windham—Deaths 32; cancer 2, other causes 20. Groton—Deaths 5; cancer 1, accident 1, other causes 3. Norwich had 63 births and 35 marriages, New London 47 births and 24 marriages; Stonington 14 births, 8 marriages; Putnam 9 births, 3 marriages; Groton 9 births, 2 marriages; Windham 34 births, 15 marriages.

## ART STUDENTS' ASSOCIATION RECEIVED NEW MEMBERS.

Had Programme Upon Some of the Early Spanish Painters.

The monthly meeting of the Norwich Art Students' association was held on Wednesday evening at the Slater Memorial with a business meeting at which the reports of the treasurer and secretary were read and Miss Alice Cogswell presented a collection of new members were received and reports were made by the house committee, the press committee and the membership committee.

The instructive and entertaining programme for the evening included a paper by Miss Eunice Gulliver upon the work of the famous colorist, and a paper upon Some of the Spanish Primitive painters, the early Spanish painters.

No one likes dandruff, but to get rid of it you must do more than wash your hair. The cause of dandruff lies not in the hair, but on the scalp and in the hair roots, and just as twice daily you use a germicidal tooth powder or cream to cleanse your teeth of germs, so you should use Parisian Sage twice daily to drive dandruff from the scalp and prevent its return. Protect your hair from falling out and nourish its proper growth. Dandruff makes your hair fall out. Parisian Sage makes dandruff fall out and your hair stay in.

## PARISIAN SAGE FOR HAIR AND SCALP

BEATEN IN FOUR STATES SUFFRAGISTS TURN TO CONGRESS FOR HELP

MRS. WINSTON CHURCHILL

Not daunted by their defeat in New York, New Jersey, Pennsylvania and Massachusetts the woman suffragists are planning further vigorous efforts to obtain the ballot, especially by means of amendment to the federal constitution. Mrs. Winston Churchill, wife of the well known novelist, has accepted the chairmanship of the committee of Washington women which has charge of the arrangements now under way for the Forty-seventh anniversary of the National American Woman Suffrage association. This convention will be held in Washington from Dec. 14 to 19. Mrs. Churchill is a charming personality, and though her wide social acquaintance in Washington is said to have made her name known to many, she is not a public figure. The beautiful country home of the Churchills at Cornish N. H., that President Wilson established the summer White House for the last two years.

## VIENNA VERSION OF SINKING OF ANCONA

(Continued from Page One)

fired on by submarine, but did not stop until receiving several hits. Forty-five minutes given passengers and crew to leave ship on which greatest panic reigned. Only a portion of boats lowered, which were occupied by members of ship's crew, who pulled hurriedly away. Great portion of boats which apparently have succeeded for rescue all hands not occupied.

**Loss of Life Rests with Crew.**  
"After about 30 minutes submarine submerged on account rapidly approaching vessel, torpedoed Ancona, which did not sink until further lapse of time. If any passengers lost lives blame rests completely with crew because instead of stopping upon warning shot fired and compelled submarine to fire and because crew endeavored to save only themselves and not the passengers, for which there was ample time and means.

**No Shots After Vessel Stopped.**  
"Story that submarine fired upon loaded boats and people in water is malicious fabrication for reason ammunition much too valuable for submarine if no other. No further shot fired after vessel stopped."

## SINKING OF ANGLIA CAUSES GREAT ANXIETY

Had Been Supposed That English Channel Was Free of Mines.

London, Nov. 18, 4.10 a. m.—The sinking of the Anglia, although the first case in the war of a hospital ship meeting disaster while carrying wounded, has caused great anxiety in the public mind as it had been supposed that the English channel was entirely free of danger from mines. The newspapers indulge in much speculation, some of them offering the explanation that they must have been German mines.

The Anglia had 200 cot cases aboard. When the rescuing vessels reached her she was badly down by the head and her propellers were racing. Her stern was so high above the sea that one of the rescue vessels was able to pass under her and forty men dropped aboard.

**A Terrific Explosion.**  
The crew of the Lusitania give vivid narratives of the disaster, according to which after a terrific explosion, the bows of the Anglia seemed to melt away until the sea lapped her rails. She surged forward, however, in a vain attempt to reach shore.

**Soldiers Calmly Await Orders.**  
Soon many boats came to the rescue, including those sent by the Lusitania. Those who were rescued were the soldiers coming up from below assembling on deck and calmly awaiting the order to pass into the boats. The soldiers were sent right under the sinking steamer's stern and immediately the crew set to work under the greatest difficulties to transfer the wounded.

**Splendid Devotion of Nurses.**  
Some of the wounded, unable to keep their footing on the sloping deck, fell into the sea and were picked up by the rescuers. Others jumped overboard. All the while the nurses worked with unflinching devotion with the

## THE PORTEOUS & MITCHELL CO.

crew to transfer their patients to the boats. The difficulties were augmented by the racing propeller, which gave a circular motion to the Anglia. The end came with dramatic suddenness. With wounded soldiers clinging to the stern, the vessel appeared for a moment to stand on her bows, then suddenly went under, but left the Red Cross flag flying at her mast six feet above the water, marking the fatal spot.

## GREAT ARMY OF COAL MINERS.

Coal Miners of the United States Employ Over Three-Quarters of a Million Men.  
A greater number of men were employed in the coal-mining industry in the United States in 1914 than ever before. According to C. E. Leisher, of the United States Geological Survey, the total number of employees in both anthracite and bituminous mines for the first time exceeded three-quarters of a million. This record was made without a sacrifice of efficiency for although the average number of days worked in the bituminous mines was the smallest since 1896, except only 1908, and the average output per man for the year was the lowest in 5 years, the average daily production by each employee in 1914 was the highest on record in bituminous coal mining.

This record is to be attributed not so much to the better character of the labor as to improved mining methods and the increased application of scientific management.

The number of men employed in the coal mines of the United States in 1914 was 763,196, of which number 179,679 were engaged in mining anthracite and 583,506 in mining bituminous coal and lignite. The average number of days of employment of each man was 207 for the United States, 195 for bituminous and lignite, and 245 for anthracite. In the bituminous mines the yearly average decreased from 237 days in 1913 to 224 tons in 1914. The daily average increased from 3.61 to 3.71 tons. The average time made at the anthracite mines in 1914 was ex-

ceeded only by the records of 1911 (246 days) and 1913 (257 days). The average yearly production of anthracite by each employee decreased from 820 short tons in 1913 to 806 tons in 1914, owing to the fewer days worked. The daily output per man was 3.66 tons, a slight gain as compared with 2.02 tons in 1913.

**From the Consular Reports.**  
Paralysis of the Belgian and German glass industries has resulted in greatly increased business done by the glass factories in Japan.

England is expecting to consume great quantities of African oranges this winter.

**Drawbacks of Civilization.**  
Bryan opines that if he had talked his kind of piffle 200 years ago he would have been hanged. Civilization has its drawbacks. — Boston Transcript.

The 35th annual convention of the Maine Wearing Apparel association was held at Kennebunk with 27 delegates present.

## Curl Hair This Way and Keep it Healthy

It has been found that the use of a harmless and inexpensive fluid, which druggists know as "alimimine," will keep the straightest hair in curl, giving it the appearance of true naturalness, besides keeping the hair softer and glossier than possible with the heated iron. The fluid may be applied with a clean tooth brush, this being drawn through the hair from crown down, and then easily and loosely on the head, as it should, considering its welfare from a hygienic standpoint. A few ounces of liquid alimimine will last for months and as it is really beneficial to the hair, which cannot be said of the heated iron, it should be generally adopted by the fair sex, as it will not spot or discolor scalp or hair, nor have any sediment, grease or stickiness.—Home Doctor.
